the reflective facilitative and interpretive practices of the coordinated management of meaning
making lives making meaning showcases practical applications of the theory of coordinated management of meaning
cmm in the facilitation section
cmm creates dynamics within groups leading toward improved ways of working together in the interpretation section
cmm offers alternative frames to interpret interactions with one another and in the reflection section
cmm is a means to reflect on experiences and interactions to deeper levels of understanding and learning
cmm is grounded in social constructionism takes a communication perspective and provides concepts and tools for making better social worlds

the book of revelation the apocalypse words that often call to mind bizarre creatures strange seals dreadful plagues and a slew of other mystifying symbols most of us approach this last book of the bible with forebodings rather than hope to us john s vision seems more like a nightmare but the elderly apostle begins with a statement that doesn t seem to fit the rest of the book the revelation of jesus christ apparently he intends to unveil something tremendously important about jesus something life changing something we can t afford to miss larry lichtenwalter explores a side of revelation seldom portrayed christ s passionate love for humanity this recurring theme subtly appears in the imagery and symbolism throughout john s vision the slain lamb the divine protective sealing the blood bleached white robes the heart wrenching prayer of the saints without christ s love these scenes and symbols would mean nothing ultimately john s vision

reveals the extraordinary love of our savior for his rebellious undeserving children and the incredible reasons we can love him in return

storytelling is part of social action and interaction that actually shapes the future of organizations organization and management studies have overwhelmingly focused to date on rational narrative structures with beginnings middles and ends where narrative has proved to be a handy concept in qualitative studies far less attention is given however to the more spontaneous and non staged storytelling that occurs in organizations storytelling and the future of organizations explores the science and practice of antenarrative because that is how the future of organization is shaped antenarrative is a term invented by david m boje in 2001 and is defined as a bet on the future as before narrative linearity coherence and stability sets in antenarrative is all about prospective sensemaking betting on the future before narrative retrospection fossilizes the past antenarrative storytelling is therefore agential in ways that traditional narratology has yet to come to grips with this handbook contribution is bringing together a decade of scholarship on antenarrative it is the first volume to offer such a varied but systematic examination of non traditional narrative inquiry in the management realm organizing and developing its approach and providing new insights for management students and scholars
